Product Data

The next generation multiple dispenser.

Multiple dispensers are the first choice when it comes to efficient dispensing of long series. For pipetting viscous media, direct displacement pipettes are often the right solution. The Stepper HandyStep® touch from BRAND combines both features and can do even more. With the color touch display, you can conveniently flick back and forth between functions and always have all the important information about your work steps in view. Operation is child's play even with protective gloves.

- Touch operation with intuitive menu navigation and integrated aid
- Languages: German, English, Spanish, French and Chinese
- Variable volume adjustment from 1.0 l to 50 ml
- Inductively chargeable

HandyStep® touch: multi-dispensing, auto-dispensing, pipetting and favorites

HandyStep® touch S: multi-dispensing, auto-dispensing, pipetting, sequential dispensing, multi-aspiration, titration and favorites
