### Product Data

DURAN® Original GL laboratory bottles have become the gold standard of multifunctional laboratory bottles since their introduction in 1972. The bottles are moulded from high-purity, amber, USP/EP Type I DURAN® borosilicate glass 3.3, renowned for its excellent thermal performance, and high resistance to chemical attack. A combination of high-performance materials and robust ISO 4796-1 design provides a long working life. The addition of a fused, external amber layer ensures that light sensitive contents are protected from the effects of photodegradation. The protection against ultra-violet light meets international USP/EP standards and lasts the lifetime of the bottle. The amber bottles feature an easy-to-read graduated volume scale, and marking field in permanent white enamel. Permanent Retrace Code on each bottle for manufacturing lot traceability. DURAN® Original amber bottles are supplied with or without iconic blue polypropylene cap and drip-free pouring ring for use up to 140 °C. All components are fully autoclavable at 121 or 134 °C. The gold standard for multifunctional glass laboratory bottles.

- with DIN 168-1 thread USP/EP (3.2.1) light transmission graduated
- Standardised GL-thread and matching cap system for particularly tight sealing and simple, clean pouring out
- UV protection up to approx. 500 nm due to external colouration
- The only external application of the colour ensures that internal surfaces have standard DURAN® glass properties
- Very durable and chemically resistant amber colour
- Easy-to-read scale with graduation marks to estimate the content
- Fired-on, highly durable white ceramic print
- Sizes 10 and 25 ml with specially shaped glass edge for improved pouring out whereby an additional plastic pouring ring is not required

**Laboratory Bottle amber, without screw cap and pouring ring  
no. 8.5803.XX**

**Laboratory Bottle amber, with screw cap and pouring ring from PP (blue)**

- Complete with blue screw cap (PP, integral lip seal) and pouring ring (PP) for drip-free pouring and clean, safe working
