## Kimberly-Clark Europe Ltd.

### EC Council Directive 89/686/EEC

#### EC Type-examination

Issue 1.

#### PPE Product

Kimberly-Clark Professional™ KleenGuard™ A80 Chemical Permeation & Jet Liquid Protective Coveralls, constructed using an orange barrier film/non-woven laminate with welded seams & elastics at cuffs, hood, ankles and waist, which are available in six nominal sizes. Product codes: 9650 to 9655 inclusive (global codes 49651 – 49655 inclusive).

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to be in accordance with the requirements of Council Directive 89/686/EEC. When examined the PPE satisfied the relevant requirements of the harmonized standards:

- EN 1073-2:2002 (non-ventilated protective clothing against particulate radioactive contamination) for a performance classification of TIL Class 1;
- EN 14605:2005 (Type 3 Limited life, full body chemical protective clothing with liquid tight connections);
- EN ISO 13982-1:2004 (Type 5 Limited life, full body chemical protective clothing against solid particulates);
- EN 14126:2003 (Type 3-B & 5-B Limited life, full body protective clothing against infective agents).

In addition the fabric met the requirements of EN 1149-1:1995 for electrostatic dissipative protective clothing on the non-woven surface.

The manufacturer's information notice (063075\_408), in English, has been inspected and found to have addressed all of the relevant requirements of the standards. However, the detailed content of the information notice is the responsibility of the manufacturer, as are translations into other languages.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 11 of the Directive are implemented and maintained while the model is in production.

Certification is based on technical file reference: KleenGuard A80 Chemical Permeation and Jet Protection Coveralls Version 07.01 with supplements.
