Product Information: Individual Certificates of BLAUBRAND® Volumetric Instruments

Dear valued customer,

BLAUBRAND® volumetric instruments from BRAND have been supplied with a batch number and a corresponding certificate since 1995. Optionally, it is possible to order these volumetric instruments with an **individual certificate**. The serial number is previously indicated like 18.01 101 on the measuring instrument as well as on the certificate. The year of production, the batch number and a sequential serial number were specified.

We have decided to change the structure of our serial number as of 01 July 2018 as follows:

18 G 12345

18 = Year	G = Month	12345 = consecutive Serial Number	
A = January	D = April	G = July	K = Oktober
B = February	E = May	H = August	L = November
C = March	F = June	J = September	M = December

This change has no effect on the ordering processes at BRAND. You will receive in addition to our **high product quality** regarding

- robust blanks,
- Quality printing inks blue, white & amber as well as color codes,
- Accuracy with AQL level of 0.4 (compliance with the limit values with at least 99.6 % safety) and
- Compliance with the relevant standard for volumetric flasks, volumetric and mixing cylinders, volumetric pipettes, measuring pipettes, burettes and titrators.

a **BLAUBRAND® volumetric instrument** with a unique serial number. We confirm this with an enclosed declaration of conformity including individual certificate.

With best regards

Peter Schütte
