The above recommendations reflect testing completed prior to publication. Always follow instructions in the operating manual of the instrument as well as the reagent manufacturer's specifications. In addition to these chemicals, a variety of organic and inorganic saline solutions (e.g., biological buffers), biological detergents and media for cell culture can be dispensed. Should you require information on chemicals not listed, please feel free to contact BRAND. Status as of: 1116/13

\* use ETFE/PTFE bottle adapter

\*\* use PTFE seal for valve block

**Note!** For dispensing HF, we recommend the use of the Dispensette® S Trace Analysis bottle-top dispenser with platinum-iridium valve spring.

# Titrette®

The control elements of the Titrette® bottle-top burette have an intuitive layout. Separate buttons for On/Off and Pause; Clear button allows user to reset the display and select functions. Easy-grip hand wheel action and smooth precision gears for fast or drop-wise titration make handling extremely simple and reliable.

\* Error limits related to the nominal capacity (= maximum volume) indicated on the instrument, obtained when instrument and distilled water are equilibrated at ambient temperature (20 °C/68 °F) and with smooth operation.

\*\* Error limit: EL = A + 2CV, according to DIN EN ISO 8655-6 Annex B (A = accuracy, CV = coefficient of variation, EL = error limit)

The titration volume is displayed in steps of 1 μl at instruments with 10 ml and 25 ml size and in steps of 2 μl for 50 ml size instruments. For titration volumes above 20 ml the display will automatically switch to steps of 10 μl.

### Note:

If you need an official certification which confirms the error limits that are much stricter than those of DIN EN ISO 8655-3, we recommend a calibration certificate from an accredited calibration laboratory (e.g., the DAkkS laboratory at BRAND).

\* Use light shield inspection window

When the instrument is properly handled, dispensed liquid will only come into contact with the following chemically resistant materials: borosilicate glass, Al<sub>2</sub>O<sub>3</sub>, ETFE, PFA, FEP, PTFE, platinum-iridium; PP (screw cap).

### Limitations of use

Chlorinated and fluorinated hydrocarbons or chemical combinations which form deposits may make the piston difficult to move or may cause jamming.

Compatibility of the instrument for a special application (e.g., trace material analysis) must be checked by the user. For additional information, please contact the manufacturer.

The instrument is not autoclavable!

### Operating limits

This instrument is designed for titrating liquids, observing the following physical limits:

- +15 °C to +40 °C (59 °F to 104 °F) of instrument and reagent
- Vapor pressure up to 500 mbar
- Viscosity up to 500 mm<sup>2</sup>/s
- Altitude: maximum 3000 m above sea level
- Relative humidity: 20% to 90%

# Transferpette® S

Whether you are using the single-channel pipette or the 8- and 12-channel models, the Transferpette® S is always the first choice for simple and efficient pipetting in demanding applications.

The single-channel pipettes cover a wide volume range from 0.1 µl to 10 ml. Pipettes with small nominal volumes provide high precision for small-volume applications such as those found in molecular biology, e.g. for pipetting enzymes.

Large nominal volumes are used for water and environmental analysis, for example, where durability is critical. For standardized applications with specific volumes, we offer economical fixed volume models.

## Genuine one-hand operation

Set the volume, pipette and eject the tip – all without changing your grip

For deliveries within five (5) working days or for order values up to € 500, BRAND reserves the right to waive an order confirmation.
- 1.7. For commercial transactions with customers having no general place of jurisdiction in Germany and between businesses, public law legal persons or special funds under public law the place of jurisdiction shall be the court responsible in Frankfurt am Main, Germany. BRAND shall also be entitled to appeal to the court responsible for the head office of the customer. BRAND shall, furthermore, as plaintiff have the right to invoke the Arbitration Court at the Chamber of Commerce and Industry in Frankfurt am Main, Germany. The Arbitration Court shall, in this case, make the final judgment in accordance with the Rules of Arbitration of the Chamber of Commerce and Industry in Frankfurt am Main without recourse to the ordinary courts of law. The instigation of legal dunning proceedings by BRAND shall not signify the exertion of its right of choice; it shall be admissible in all cases.
- 1.8. German law shall apply exclusively under the exclusion of the conflict of laws principles of Private International Law and the UN Convention on Contracts for the International Sale of Goods (CISG).

## 2. Delivery

- 2.1. The place of performance shall be the factory of BRAND in Wertheim, Germany. The risk shall transfer to the customer when the goods for delivery are packed and ready for pick-up (EXW (Incoterms® 2010 ex works)). This shall also apply to partial deliveries or where BRAND has performed additional services, such as shipping; costs for transport, packaging or insurance; exportation and installation. This shall also apply in case of delivery to a consignment warehouse of the customer.
- 2.2. Insofar as BRAND has agreed to orders on call, the customer must take delivery prior to the agreed date, otherwise within six (6) months.

## 3. Delivery Period, Force Majeure, Delay

- 3.1. Delivery times shall be ex works. Delivery periods or delivery dates are subject to the customer providing relevant information and documents such as drawings, permits or approvals, opening letters of credit as agreed, making agreed advanced payments and complying with any obligation on time. In particular, the customer is obliged to immediately provide all information required for export, import or shipment (e.g. final recipient, final destination and intended use), documents, approvals and certificates which may be required for the fulfillment of BRAND's obligations. If delays occur due to required approval, examination or information procedures, delivery periods and delivery dates shall be extended accordingly if BRAND is not solely responsible for the delay.
- 3.2. Delivery shall be subject to BRAND receiving its own supplies punctually and in good order.
- 3.3. If delays of delivery periods are due to Force Majeure, e.g. natural disasters, mobilization, war, riot or similar events beyond control of BRAND, e.g. strike or lock-out, delivery periods shall be extended by the time during which the aforementioned event or its effects persist.
- 3.4. BRAND shall immediately inform the customer about delivery barriers or delays and their expected duration.
- 3.5. BRAND shall be considered to be in default of delivery only if the customer has issued BRAND with a reminder, has set a reasonable extension period which has elapsed. The customer shall be obliged to immediately inform BRAND in writing of any likely consequences of delay.
- 3.6. In the case of delay damages, BRAND's liability for compensation shall be limited to 10% of the value of the delayed delivery/ service. The limitation shall not apply in cases of willful intent, gross negligence and/ or injury to life, limb or health.

## 4. Prices, Terms of Payment

- 4.1. Prices shall be EXW (Incoterms® 2010 ex works), Wertheim and exclusive of statutory VAT, if applicable. Costs of packaging, transportation, freight and insurance shall be borne by the customer. Prices shall also be exclusive of the cost of returning and recycling/ disposing of old equipment.
- 4.2. Invoices shall be payable to BRAND account in EUROs (€) without deductions and free of charges and expenses. Payment shall be made immediately or by the date stated. The determinant factor shall be the receipt of payment. Cheques and bills of exchange shall only be accepted on account of performance and at the cost of the customer.
- 4.3. In the case of customers, with whom BRAND is working for the first time or with whom BRAND does not work regularly, after delay in payment or in the case of reasonable doubt as to the creditworthiness of the customer, BRAND shall reserve the right to make individual deliveries dependent on a pre-payment or a security deposit to the value of the invoice amount.
- 4.4. Should the period between conclusion of contract and agreed delivery exceed four (4) months, so may BRAND, at its discretion, demand a reasonable additional charge equivalent to the increase in its costs up until delivery.
- 4.5. In the case of an agreed return of goods that are free of defects, the customer shall be charged a checking and processing fee of 20% of the invoice amount (minimum € 50).
- 4.6. Should the customer be in arrears with payment, BRAND debt claims against him shall be due immediately, and BRAND shall not be obliged to make any further deliveries based on current delivery contracts.
- 4.7. If payment is delayed, BRAND shall charge - notwithstanding further damage compensation claims - interest on arrears at the statutory rate.
- 4.8. BRAND may offset amounts payable to the customer (e.g. from credit notes) against BRAND claims against the customer.

## 5. Retention of Title, Assignment of Future Claims

- 5.1. The goods delivered shall remain property of BRAND until the complete and unconditional payment. Should BRAND still have further claims against the customer arising from the business relationship, BRAND shall then retain its property rights until payment of such claims has been effected.
- 5.2. The customer may neither use goods subject to retention of title nor combine them with other objects to which a third party may have rights. Should, however, goods subject to retention of title become, through their combination with other objects, part of a new (complete) item, BRAND shall be a proportional co-owner of this new item directly, even if this latter component is regarded as the main component. BRAND's proportion of co-ownership shall be determined by the ratio of the invoice value of the goods to the value of the new item at the time of combination.
- 5.3. The customer may resell goods subject to retention of title in the course of his normal business as long as he has not assigned, pledged or otherwise encumbered his claims from the resale.
- 5.4. The customer shall assign to BRAND in advance as collateral any claims against his customers from the resale of the goods subject to retention of title (see Clause 5.3) and/ or newly formed items (see Clause 5.2) to the value of BRAND's invoice for the goods subject to retention of title. As long as the customer is not in default of payment for the goods subject to retention of title, he may collect the assigned claims in the ordinary course of business. He may, however, only use the proportional proceeds for the payment to BRAND for the goods subject to retention of title.
- 5.5. At the customer's request, BRAND shall release collateral at its discretion if and to the extent that the nominal value of the collateral exceeds 120% of the nominal value of its outstanding debt claims against the customer.
- 5.6. The customer shall be required to inform BRAND immediately of any attachments, seizures or any other third-party dispositions relating to the goods that are reserved or co-owned by BRAND.

- 5.7. In the event of delay in payment, failure to pay bills of exchange or cheques, or failure or recall of a payment made via SEPA Direct Debit Scheme, suspension of payments or insolvency of the customer or of the end buyer, the rights of the customer under Clause 5.3 shall no longer be valid. The customer must then immediately inform the buyer of BRAND's extended retention of title; he may use the proportional proceeds relating to the assignment only to pay for the delivered goods. BRAND shall be entitled to collect the assigned receivables itself.

- 5.8. In the event of customer's culpable breach of contractual obligations, in particular for the cases covered in Clause 5.7, BRAND shall be entitled to withdraw from the contract and/ or, without withdrawing from the contract, demand the return of any goods subject to retention of title still in possession of the customer and to collect the assigned receivables itself. In order to ascertain the rights of BRAND, BRAND shall be entitled to have all of customer's documents/ books concerning the reserved rights of BRAND examined by a person who is subject to the professional duty of confidentiality.

## 6. Warranty, Limitation of Liability

- 6.1. BRAND warrants that its delivered goods (including any agreed installation) are free of defects at time of risk transfer. The required quality, durability and use of BRAND's delivered goods are based solely on the agreed written specification, product description and/ or operating manuals. Any information beyond this, in particular in preliminary discussions, advertising and/ or referencing industrial standards shall only become part of the contract if they are expressly referenced in writing.
- 6.2. Should the customer require the delivered goods for purposes other than those agreed, he must take responsibility himself for examining their special suitability for this - also in terms of product safety - and ensure their compliance with all relevant technical, legal or regulatory provisions before the intended use. BRAND shall not be liable for any usability that was not expressly confirmed by BRAND in writing. In the case of material or design requirements of the customer, BRAND shall accept no liability for the suitability or permissibility of the desired materials or designs. Compliance with safety-related and occupational health regulations depends on the location and operating conditions of which BRAND has no prior knowledge. Action for ensuring compliance shall therefore be the responsibility of the customer or his buyer.
- 6.3. BRAND shall not be liable for the consequences of improper handling, use, maintenance and operation of the delivered goods; the consequences of normal wear and tear, in particular of wearing parts, such as pistons, seals, valves; the breakage of glass, plastic or ceramic parts; for the consequences of chemical, electrochemical or electrical influences; or non-observance of the operating instructions.
- 6.4. If a notice of defect is justified, BRAND shall initially only be required to provide cure. Any such cure shall be, at the discretion of BRAND, either rectification of the defect or delivery of goods free of defects. Further warranty claims shall only apply in the event of rejection, impossibility or failure of the cure. If cure is possible only at disproportionate expense pursuant to Section 439 Para. 4 BGB (German Civil Code), BRAND will bear the cost necessary for the cure according to Section 439 Para. 2, 3 BGB (German Civil Code) up to a limit of 150 % of the value of the delivered goods free from defects.
- 6.5. The customer must, immediately upon receipt of the goods, inspect them carefully, also in terms of product safety, and notify obvious defects immediately in writing; any hidden defects must be immediately notified upon discovery. The customer must notify the carrier immediately of any transport damage. Failure to observe the testing and notification obligation shall void any customer claims for defects.
- 6.6. BRAND's liability for slight negligence shall be limited to claims for injury to life, limb or health, to claims under the Produkthaftungsgesetz (German Product Liability Act) or to claims of culpable breach of fundamental contractual obligations through which the purpose of the contract is endangered. Otherwise, its liability for slightly negligent breach of fundamental contractual obligations is limited to the typically occurring damages which BRAND could have foreseen when the contract was concluded.
- 6.7. Should the customer use the delivered goods in conjunction with environmentally harmful, toxic, radioactive or otherwise hazardous materials, he must notify BRAND about any such materials and decontaminate the delivered goods prior to returning them to BRAND. If applicable, BRAND may charge any necessary costs for decontamination/cleaning and disposal to the customer's account.

## 7. Limitation Period

The warranty period shall be one year and starts from the date of delivery of the goods to the customer. The same shall apply for claims for damages, irrespective of their legal basis. The limitation periods of Section 438 Para. 1 Nos. 1 and 2 and Section 634a Para. 1 No. 2 of the BGB (German Civil Code) shall remain unaffected. The warranty period for any rights of recourse pursuant to Section 445a BGB (German Civil Code) shall be one year and starts from the date of delivery of the goods to the customer. The suspension of expiry pursuant to Section 445b BGB (German Civil Code) shall end no later than three years after BRAND has delivered the goods to the customer. The restrictions of the limitation periods shall not apply to claims based on fraudulent concealment of a defect, for claims under the Produkthaftungsgesetz (German Product Liability Act) or for damages resulting from injury to life, limb or health or other damages based on intent or gross negligence. The limitation period in respect of replaced or repaired goods shall only commence anew if BRAND admitted the defectiveness of the replaced or repaired goods.

## 8. Software Use

- 8.1. If software is included in the scope of a delivery, the customer shall be granted a non-exclusive right to use the software and its associated documentation. It is provided for use on the designated delivery item. The use of the software on more than one system shall be prohibited.
- 8.2. The customer shall only be entitled to copy, transfer or translate the software or to convert it from object code to source code to the extent permitted by law (Sections 69a et seq. Urheberrechtsgesetz - German Copyright Act). The customer undertakes to refrain from removing manufacturer information, in particular copyright notices, or from changing these without BRAND's prior express consent or the prior express consent of the software supplier.
- 8.3. All other rights to the software and the documentation including copies thereof shall remain with BRAND and/ or the software supplier. The issue of sublicenses is not permitted.

## 9. Installation

- 9.1. Installation costs may be invoiced on a monthly basis. Fixed installation prices shall only cover the work that has been agreed upon.
- 9.2. The customer shall be responsible for providing the following at his own expense: lighting, motive power, if necessary, compressed air; water; electrical power for welding and heating, including the necessary connections; electrical installations to connect the products supplied by BRAND; the devices required (such as lifting equipment); a lockable room that can be used for storing materials; tools and clothing during the installation.

## 10. Spare Parts, Maintenance/Repair and Calibration

- 10.1. For spare parts and maintenance, repair and calibration services, the current repair and exchange price list shall apply.
- 10.2. Insofar as there is an obligation on the part of BRAND to maintain/supply spare parts, then this obligation shall be limited to a period of five (5) years from the date of delivery. If spare parts are not manufactured by BRAND, or are no longer available on the market, for example electronic components, or if the raw material for their production is no longer available, the obligation of BRAND to deliver spare parts shall lapse.
- 10.3. For calibration and maintenance, expendable items from BRAND production are normally used.
- 10.4. Maintenance and calibration services can only be provided if the customer has declared the devices sent to be safe to work on from a health hazard perspective.
- 10.5. For repair/service values of up to € 50, BRAND reserves the right not to provide a separate cost estimate.

## 11. Legal Reservation, Industrial Property Rights, Confidentiality

- 11.1. BRAND reserves ownership and all industrial property rights and copyrights to all moulds, tools or other devices, samples, pictures, and business and technical documents produced or provided by BRAND. This also applies where the customer has wholly or in part taken on the costs hereof. The customer may use these only in the manner agreed with BRAND. Without BRAND's written consent, the customer may not himself manufacture contractual objects delivered or have the same manufactured by third parties.
- 11.2. Insofar as BRAND delivers goods according to the designs or other requirements specified by the customer (models, patterns etc.), the customer shall be liable to BRAND by default for ensuring that, through the manufacture and delivery of these goods, the industrial property rights or other rights of third parties are not infringed. If the customer is at fault he shall reimburse BRAND all damage resulting from any such infringement of rights.
- 11.3. Any information acquired from this business relationship and not deemed to be public knowledge must not be disclosed by the customer to third parties.
