The new, smart HUBERLAB. eShop

What is new?

1

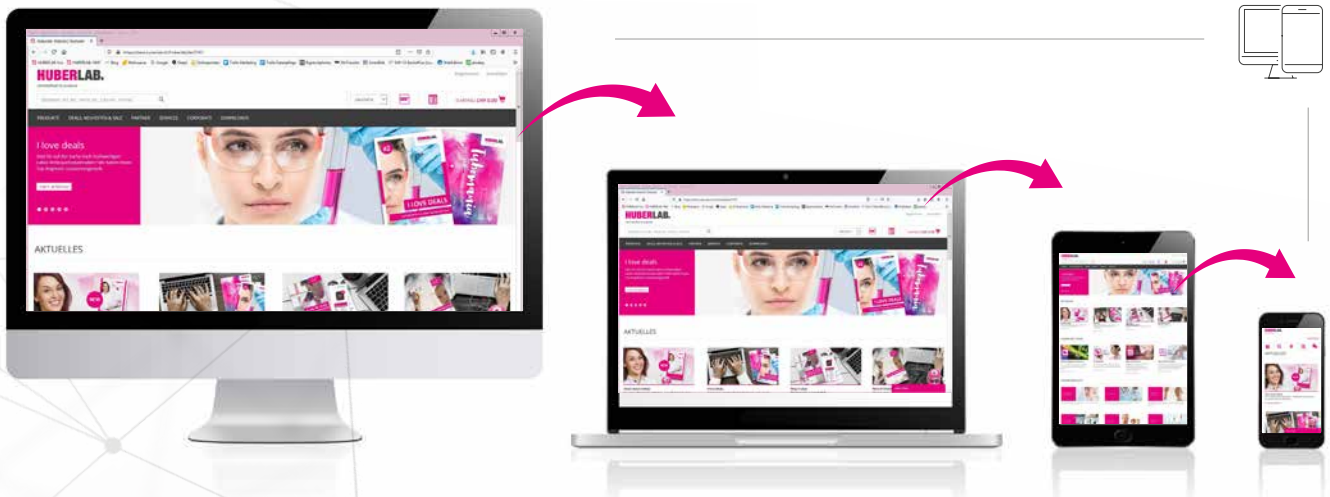

Modern system architecture – Ensures significantly improved performance

The «State-of-the-Art» SAP Hybris eShop is based on the powerful Microsoft Azure platform and guarantees fast and secure data access.

2

Responsive Design – The new HUBERLAB. eShop responds to different devices

Whether accessed via desktop, tablet or smartphone; the website is optimized for various end devices.

3

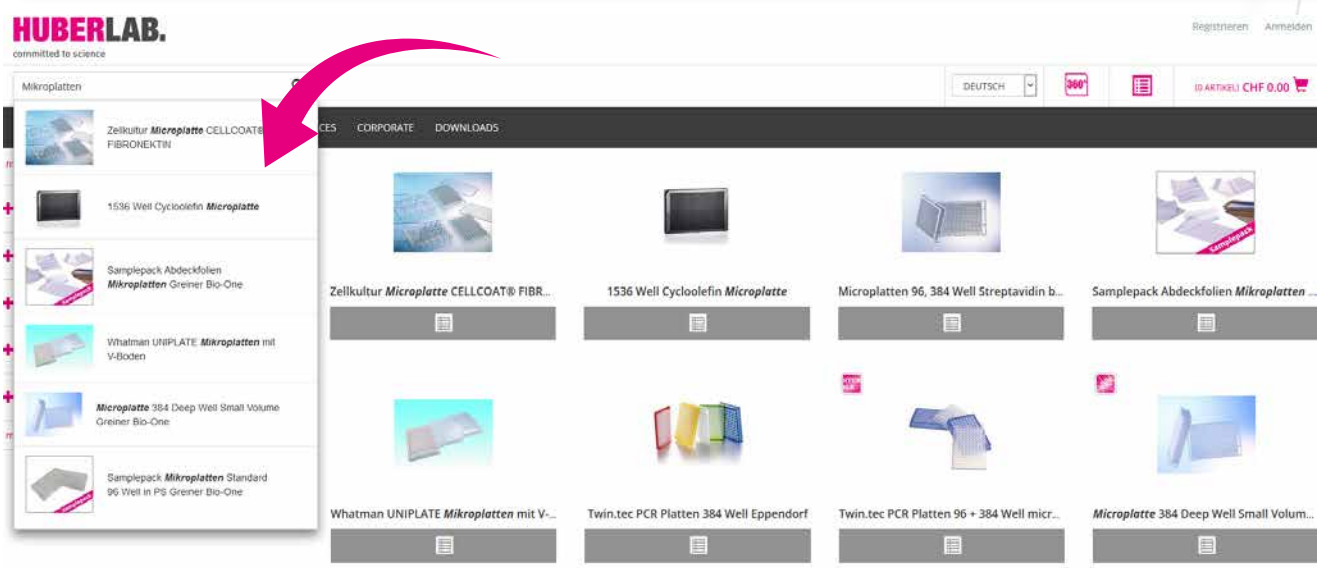

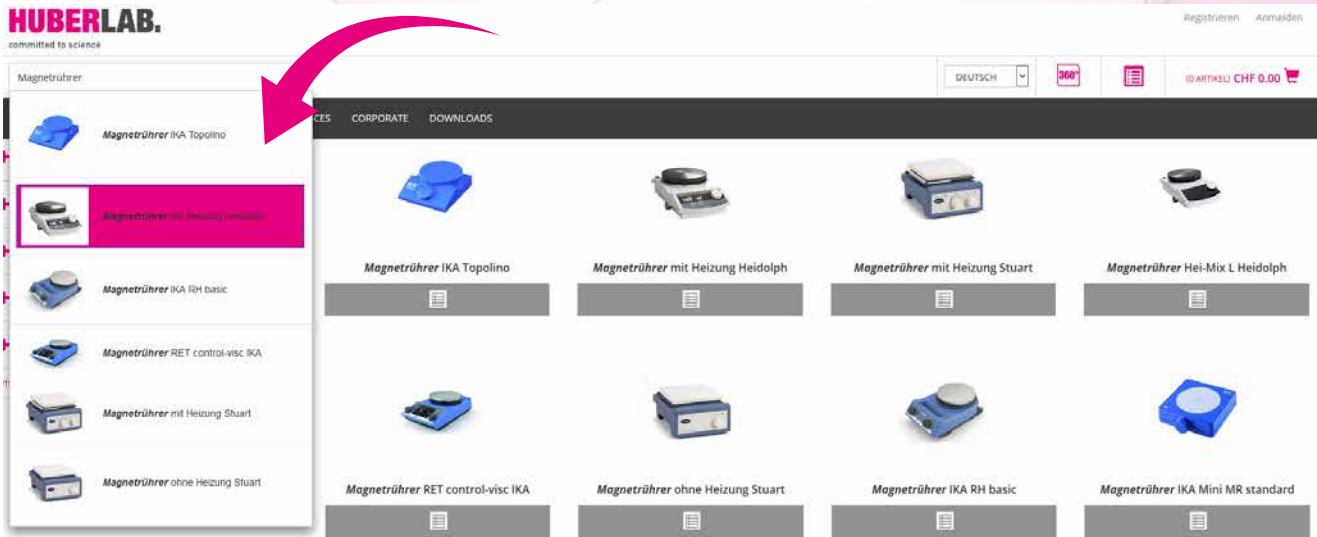

Often requested, finally here – Your e-mail address as username

What was my username again? Have you already asked yourself that? In our new eShop you can now also use your e-mail address as your username. Nice when things get easier.

4

The new search with image – Find your products even faster now

A picture says more than 1000 words ... find the desired products even faster with the optimized search and the integrated image display.

5

Shopping carts remain available – Your data can always be accessed

The phone rings, the call takes a little longer ... just a short distraction in the ordering process. In the past, the shopping cart was deleted after 30 minutes. This is now a thing of the past. Your shopping cart remains in the system for up to 14 days.

6

Saved shopping carts – Facilitate your planning and procurement

You would like to store different shopping carts for a longer period of time? This way you can plan your procurement optimally and retrieve the prepared shopping carts in a flash if necessary. Use the new function of saved shopping carts.

7

Repeat orders – Re-order regularly recurring orders at the touch of a button

With three clicks to the finished order. In the future, you can generate recurring orders in no time at all from orders already placed in your order history. It doesn't get much simpler.

Any number of shipping and billing addresses can be stored

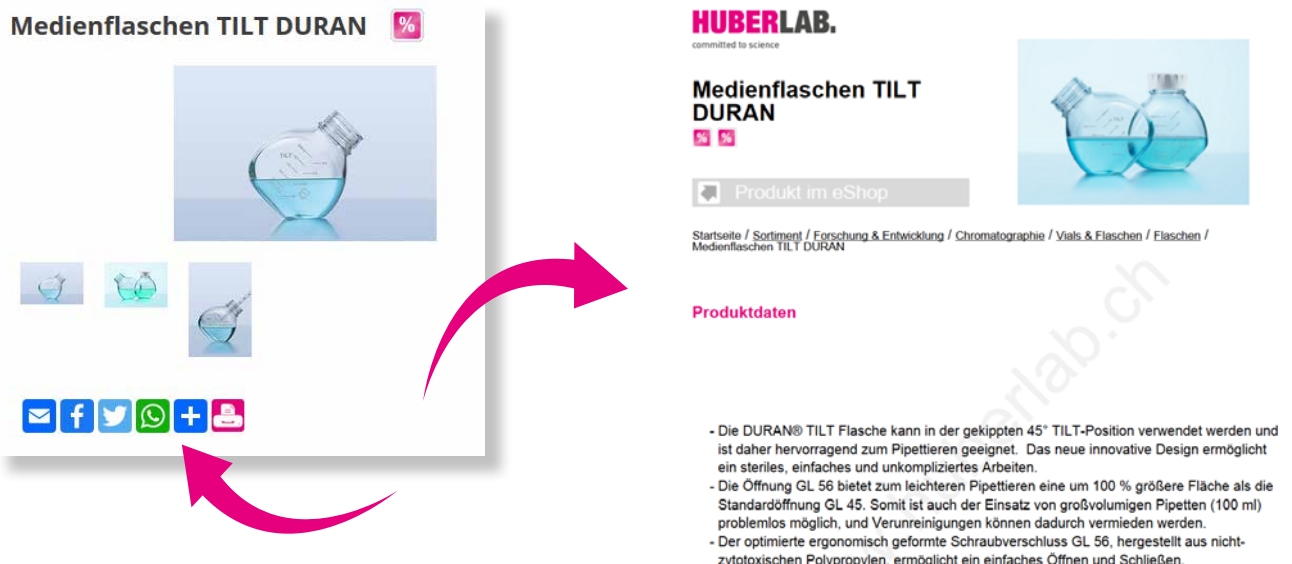

Store and administrate as many shipping and billing addresses as you like and define a standard address for each, this guarantees a fast checkout.

9

Share functionality – Share your product recommendations with your network

You are a fan of HUBERLAB. and our products? We are happy to hear that! We are even more pleased if you share information about our products through various channels. Also the analog way, a printout of all product details, is now possible at the push of a button.

The new download center – current information quickly accessible

Find current catalogs, certificates, data sheets, videos and much more about our products and services. Enjoy browsing our Knowledge Base.

The screenshot displays the HuberLab website's Download Center. At the top left, the HuberLab logo is accompanied by the tagline "committed to science". To the right, there are links for "Registrieren" and "Anmelden". A search bar is positioned below the logo, with a placeholder text "Suchwort, Art.-Nr., Herst.-Nr., CAS-Nr., Formel". To the right of the search bar, there is a language selector set to "DEUTSCH", a "PDF" icon, a document icon, and a shopping cart icon showing "0 ARTIKEL CHF 0.00".

The main navigation bar includes links for "PRODUKTE", "DEALS, NEUHEITEN & SALE", "PARTNER", "SERVICES", "CORPORATE", and "DOWNLOADS". Below this, a breadcrumb trail shows "STARTSEITE / DOWNLOAD CENTER".

The central section is titled "Download Center" and features a horizontal carousel of six categories, each with a representative image and a pink icon: "Kataloge" (document icon), "Application Notes" (document with checkmark icon), "Formulare" (document with checkmark icon), "Technische Informationen" (document with key icon), "Zertifikate" (document with checkmark icon), and "Videos" (play button icon).

Below the carousel, there is a search and filter section. On the left, there are four filter boxes: "NAME/BESCHREIBUNG", "THEMA" (with a dropdown menu labeled "BITTE WÄHLEN"), "MARKE" (with a dropdown menu labeled "BITTE WÄHLEN"), and "MEDIENTYP" (with a dropdown menu labeled "BITTE WÄHLEN"). On the right, there is a pagination control showing "1 2 3 4 5" and a search result count of "175 Medien gefunden".

The main content area displays a search result for "GREINER BIO-ONE - PUBLICATIONS-3D CELL CULTURE (EN)". The result includes a small thumbnail image of a document, the title "GREINER BIO-ONE - PUBLICATIONS-3D CELL CULTURE (EN)", the language "EN", and the source "Zellkultur".
